

Exclusive Elevated Lots Released at Jindalee

22 July 2015

Seven premium select lots have just been released at Jindalee Beachside Estate, in one of the last stages of the popular northern beachside land estate.

These exclusive lots are part of Stage 14 of Jindalee Beachside Estate, and all have sweeping ocean views from an elevated aspect within 200 m to the beach, and one street away from the beachfront. The lots situated below these seven lots are some three metres lower.

Stage 14 is located in the southern most portion of the estate opposite a public open space and the majority of the traditionally sized lots were released late 2014, and early 2015.

These seven elevated lots range in size from 584 to 836 square metres with 16-18 metre frontages. They are priced from \$610,000 - \$695,000 and all have ocean views.

Upcoming releases within Jindalee Beachside Estate include 24 lots plus a group-housing site on the northern boundary of the estate. These lots are located at the highest aspect of the estate and will be popular amongst buyers seeking a high elevation with the majority having sweeping ocean views.

Project Director from Heath Development Company Brian Newman said that 'these seven lots are amongst the most expensive lots within the estate due to their elevation, sweeping views and close proximity to the beach. We expect demand to be strong from interested buyers who have been holding out for these premium lots.'

Jindalee Beachside Estate is one of the Perth's most successful and sought after land developments in the northern suburbs since lots were initially released in September 2007, comprising of traditional and cottage style lots, many of which have uninterrupted ocean views.
