

Media Release

25 August 2014

## **More Select Lots Released at Jindalee**

Eight select lots have just been released at Jindalee Beachside Estate, in one of the last stages of the popular northern beachside land estate. Due to their ocean view potential and close proximity to the beach and foreshore reserve, these lots will not be on the market long.

Stage 14 is located in the southern most portion of the estate and consists of 25 traditionally sized lots- all of which have a northerly ocean aspect. These select lots are priced from \$425,000 - \$525,000 and range in size between 458 – 630 square metres.

Nine lots from stage 14 were released in July 2014, and have all sold out.

Demand has been strong for all previous land releases at Jindalee Beachside Estate, and these eight lots are the only vacant land that is available within the estate.

Project Director from Heath Development Company Brian Newman said that 'over 85% of this 940 lot development has already been released and subsequently sold. There will only be limited opportunities for buyers to gain access to Jindalee Beachside Estate in the future.'

Jindalee Beach is a very popular beach and boardwalk area utilized by residents and people from neighbouring estates. The much anticipated second beach access way will be open for public use in the next two weeks.

Jindalee Beachside Estate is one of the Perth's most successful and sought after land developments in the northern suburbs since lots were initially released in September 2007, comprising of traditional and cottage style lots, many of which have uninterrupted ocean views.
