Premium Lots Released at Jindalee

Eight premium select lots have just been released at Jindalee Beachside Estate, in one of the last stages of the popular northern beachside land estate. Due to their ocean view potential and close proximity to the beach, three have already sold.

Stage 14 is located in the southern most portion of the estate opposite a public open space and consists of 25 traditionally sized lots- all of which have a northerly ocean aspect. 17 lots from this stage were released last year and there are only 2 left from the 2014 release priced at \$445,000.

These eight lots range in size from 630 to 665 square metres with 18-19 metre frontages. They are priced from \$535,000 - \$635,000, and most have ocean views.

In midyear 24 lots plus a group-housing site in Stage 13 on the northern boundary of Jindalee Beachside Estate are planned to be released. These lots are located at the highest aspect of the estate and will be popular amongst buyers seeking a high elevation with the majority having sweeping ocean views.

Project Director from Heath Development Company Brian Newman said that 'there will be limited opportunities for buyers to gain access to Jindalee Beachside Estate in the future, and these lots have already generated plenty of enquiry.'

Jindalee Beachside Estate is one of the Perth's most successful and sought after land developments in the northern suburbs since lots were initially released in September 2007, comprising of traditional and cottage style lots, many of which have uninterrupted ocean views.
